★ ★ ★ ★

JOE KROL RETIRES—Joe "King" Krol and family stand in front of the new automobile presented to Joe upon his retirement from football. One of the greatest Canadian born players of all-time, Joe is shown with Mrs. Krol and sons, Peter (left) and Nickie.

TWINS ARE NINETY YEARS OLD—Mrs. Edmond Labonte, left, and her twin sister, Mrs. Arthur Dausereau, celebrated their 90th birthday last month. Residents of Vancouver, they are believed to be the oldest twins living in Canada.

"FLASHY" OFFICER—Lt. W. S. Lockard, leading signal officer aboard the USS Midway, models his new suit with tiny bells strung up and down across his body and signal paddles. Inset at lower right show how he looks to pilots returning to the carrier at night.

HOLY LAND ROCKS—Part of a 100-ton shipment of rocks from historic Biblical sites is unloaded from the SS Excellence at a Jersey City, N.J., pier. The shipment arrived from Haifa, Israel, with material to build an authentic "Garden of Israel" at Beth Israel Memorial Park in Woodbridge, N.J.

JUNK FARMING—Junk is the principal product of this tumble-down farm at West Almond, N.Y. Here farmer John Herdman finds his hobby of collecting, swapping and bargaining for "things" far more profitable than raising vegetables. Herdman's farmhouse, adjacent shops and surrounding sand-choked land are crisscrossed with his "collector's items," which range from monstrosities to ancient leashes.

NATIVE PLUMAGE AND ANCIENT PACE—Highland Mohawks of the Injokele tribe, gathered here in front of the Supreme Court building, assembled in Ottawa to hear the appeal in the Beaulieu Court of Louis Francis, Indian soldier, at St. Regis, Que., against customs duties charged on personal goods he brought back from the United States. Francis, in center wearing dark suit and flanked by two soldiers, claims all Canadian Indians are exempt from such duties under the Anglo-American Jay Treaty of 1794. In the group is Chief Poking Fire of nearby Chugawaga.

WOMEN MEMBERS—These are the four women members of the House of Commons who attended the opening of Parliament in Ottawa. Left to right, are: Mrs. Ann Shipley (L—Toronto); Mrs. Margaret Aiken (PC—York); Mrs. Elsie Fairclough (PC—Hamilton); and Mrs. Sylvia Bennett (PC—Halton). Mrs. Fairclough was the only woman member of the last Commons.

THE FINISHING TOUCH—Donald Gordon, chairman and president, Canadian National Railways, drives the last spike at Lynn Lake, Manitoba, to officially open the new 14-mile line from Thurston settlement. Lining of the nickel-plated spike during a snow storm marked the opening of the line to loads of ore from Sherritt Gordon's new nickel and copper mines in northern Manitoba.

TO BE ENCOURAGED—Said the judge: "I wish to commend you two drunk drivers for running into each other instead of some innocent person. If this thing can be encouraged, I think we may have hit upon the solution of a serious problem."

Drive With Care

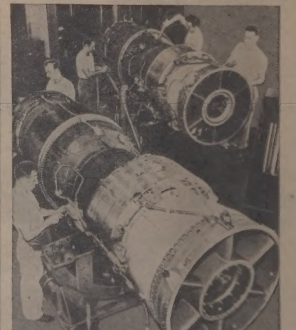

RURAL WATER SYSTEM—So light that a small boy could easily carry several hundred feet, rust-proof polythene plastic piping is science's latest contribution to rural water systems. Both flexible and resistant, the piping is resistant to corrosive soil chemicals and can be installed economically. Here we see a farm youngster laying the piping while his father plows a furrow. A truck would be required to convey the same length of metal pipe.

BRUIEN BONES—Heavy masonry was no match for the force of floodwaters that recently engulfed Olveto and other towns in the southern Calabria region of Italy. More than 100 were killed, and 1,000 were made homeless, including this forlorn family of Olveto.

SALT OF THE EARTH—Sea-water walls make a pleasing pattern on this salt "farm" near Okayama, Japan. Here oriental workers obtain salt by the most primitive method, collecting sea-water in the wells and then, when the water has evaporated, scraping the light crust of salt off the earth. The process is dependent upon warm sun and light rainfall.

POWER PRODUCERS—Two of the most powerful jet engines yet developed for the United States Air Force near the end of the Con. Korean war, the 27, the jet engine was announced by air force officials as the first to have an official rating, in the 10,000-pound engine through which air enters. At 20,000 feet and a speed of 275 miles an hour, one pound of thrust is the equivalent of one horsepower.

erry Christmas Western Canada from EATON'S

TIME TO BUY REGISTERED SEED

Competition to sell wheat between different exporting countries is keen and vigorous. But quality will tell. The best way to maintain and improve the quality of Canadian wheat is by using registered seed. For prices and particulars of this high class seed, so profitable for farmers, see the nearest Seale Agent.

SEARLE GRAIN COMPANY, LTD.

Butter in at 58 cents a pound and puts it in storage to keep it off the market. That created a reaction in Toronto to price to wholesalers a fraction above 60 cents a pound. Two additional price markups, by wholesale distributors and retailers, are added before the product reaches the consumer. Butter at this price cannot be exported because it cannot compete in overseas markets. And it is not competitive in the domestic market because the 58-cent floor price removes the necessity for competition.

Local and District

The weather remains dry and cold, with brisk winds and freezing temperatures.

Mrs. Ada Lavers was a bus visitor to Calgary last week.

Mr. and Mrs. John Marshall were bus visitors to Calgary last Friday.

W. H. Sloan, S. H. Sloan, and P. Battle were motor visitors to Regina, Saskatchewan, on Wednesday last.

Jimmy Martin left last week for Vancouver, having received word of the death of his mother.

Vere Kidson journeyed to Edmonton by bus last week.

Mrs. George Pearson, of Yorkton, visited her parents in Delia over the week end, and returned to Edmonton.

Mrs. F. Lister and family were bus visitors to Calgary over the week end.

Gene and John Franciacci accompanied Mr. and Mrs. J. Marshall to Calgary by car on Monday.

Henry Larkup and Frank Isaac attended an automotive convention in Edmonton last week.

Among visitors to Calgary during the week end were Mr. and Mrs. A. T. Marshall, Mr. and Mrs. M. P. Marshall, and Pete Caravaggio.

Mr. and Mrs. W. J. Tabor left by bus Monday eve. to visit their son and other relatives in Washington, Idaho, and Oregon for a couple of months.

Ask Quota Control

The Wheat Pool convention ended a resolution which calls for a quota control on the export of wheat.

Wheat Board promotes a maximum of the law in instances where persons are violating the quota marketing system. Under the system each farmer is allowed a certain space for 3 bushels of grain for every 100 acres of land.

As space becomes available the quota will be raised.

It was maintained that the quota system was the only one which gives the farmer a fair share of the elevator profits. Infringement thereof would put the rest of the farmers at a disadvantage.

Mr. McNeil said that it was important that the regulations be strictly observed, particularly in a year such as the present. Where individuals over deliver both the farmer and the elevator agent are liable to pay fines.

TOUGH SALES TACTICS

IN DESTRUCTIVE POWERS, rude tactics and general rough-house ability of any bargain sale is often impossible to distinguish the Colonel's Lady from Judy Ray or the Queen of the Upper Crust from Little Miss Nobody.

Each of them, observations will show, have a regular knack for mixing paired items, crushing the merchandise, upsetting display stands, elbowing and pushing. None of them for one instant consider the possibility of forming a queue to give fair play to the earliest shoppers.

The unseemly conduct, which often turns a bargain sale into a brief period of unarmored combat, costly in effort to clerks and causes loss in merchandise to the owner.

On some occasions garments have been torn beyond repair then dropped on the floor.

Apparently there is no satisfactory explanation of the madness of a bargain sale sending most meek, lady-like person clanking her way through every obstacle in a manner befitting a Tigris.

In some areas clerks and management hold the destruction down by ruling that only a limited number of people may enter the store at any one time.

RADIO

The following are among the highlights of programs to be heard over CBC stations on Thursday, Friday, Saturday and Sunday, December 17, 18, 19, and 20. All time mentioned is Mountain Standard Time.

Drumheller Mines Yield 133,075 Tons In October

During October mines in the Drumheller Valley area produced 133,075 tons of coal, according to figures released by J. A. Luthien, director of mines, at the week end.

Early in the season several mine operators in the area reported that they were a short way of experienced workers.

Production figures for individual Alberta mines during October, according to a list released by J. A. Luthien, are:

SUB-BITUMINOUS FIELD
Arcelor 1,151; Big Valley 139; Brooks 1,440; Carbon 8,580; Champion 1,000; Coalbrook 1,000; Edmonton 27,620; Glenora 1,100; Pembina 28,440; Tabor 1,000; Carleton Place 6,580; Custer 6,250; Red Hill 900; Sherburne 12,000; Total 128,875; Westlock 1,070. Total—133,075.

BITUMINOUS FIELD
Canada 27,620; Norbert 2,100; Greenwood 14,200; Mountain Park 40,224; Colquhar 77,250; Lethbridge 2,314; Paddock 800; Pioneer 12; Prairie Creek 39; Saunders 3,000. Total—100,000.

Commercial Activity Heavy In Midland

Coal and oil loading and gravel storing activities in the past few weeks have given the Midland area the appearance of a busy commercial zone.

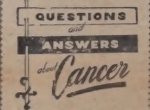

The loading of coal and oil operations, which are well within sight of each other, have been heavy, while from early morning till late evening trucks, led by the Red Deer drive, are busy.

Cards of Thanks

We wish to thank all those who contributed to the success of our Pool Supper held last Friday night, at the Club House.

We wish to express our sincere thanks to Mrs. Eberly, Mrs. Whitman, the choir, and pianist, and to all those who offered cards and sent floral tributes during our recent and bereavement.

The McKay and Hands Families

QUESTIONS: Is there a relationship between regular loading and cancer of the cervix or uterus?

ANSWER: There may be, and for that matter, many other symptoms should go on once to a doctor. In regular loading is usually the first sign of cancer of the cervix or uterus. In some cases, a discharge may be the first sign.

Drumheller—Alberta

Manure Values

On the basis of a value per pound of 1 cent for nitrogen, 7 cents for phosphoric acid and 7 cents for potash, the values of fresh manure have been calculated as follows:

horses \$1.10 per ton, cow \$2.00, sheep \$4.00 per ton, pig \$2.75, sheep \$4.00 per ton, pig \$2.75.

The three main racial divisions are white, yellow and black.
